This fan-fiction article, **Cosmic Horrors**, was written by [Adalwulf of Aedirn](#), [Witcher190](#). Please do not edit this fiction without the writer's permission.

The **Cosmic Horrors** are a collective of beings which opposed the [Elohim](#) approximate 1,000,000,000 years before the Resurrection for domination of all creation. The majority of the collective was banished to the fringes of the Yottaverse with some weaker beings existing in the Petaverse. While some of the weaker and less noticeable slipped past the Elohim Cosmic Blockade but at the cost of massively weakening them as is the case of [Dagon](#), who was so weakened, he entered a long death-like sleep to recover, his servants the [Vodyanoy](#) continuing to serve him even in his weakened state.

Physiology

Differs between different individuals as well as from different viewpoints. Though weaker beings may not be as frightening and as such have a clear form such as the species of the Vodyanoy.

Abilities

- **Eldritch Physiology: Cosmic Horrors** are eldritch abominations, beings whose very existence defies the rules of nature and/or existence and is defined by its disregard for the natural laws of the universe as we understand them. They wield godlike powers and are, for the most part, not bound by the laws of the universe. Their true form cannot be grasped by mortal beings and may be interpreted differently by different individuals/species, with others creating a collective delusion of their form. These interpretations can range from the unusual to the awe-inspiring, to the mind-shatteringly terrifying. It is rare, but not unheard of, for the presence of such a being to benefit the universe it currently inhabits.

- **Alien Mind:** The inner workings of a **Cosmic Horror's** mind differ greatly from what could be considered "normal" or "sane" by the standards of most living things.
- **Contagious Influence: Cosmic Horrors** can taint those around them with a physio-psychoactive influence that can twist and warp their very appearance and mindset to whatever the individual desires.
- **Fanaticism Inducement: Cosmic Horrors** can induce fanaticism, the belief in something with uncritical zeal, or with an obsessive enthusiasm.
- **Incomprehensible Form: Cosmic Horrors** possess true forms that others cannot grasp with their mind.

Trivia

- These beings are obviously inspired by H.P. Lovecraft's Cosmic Horrors with the except of (maybe) Gaunter O'Dimm.
- The Vodyanoy, their description and Dagon very much resemble H.P Lovecraft's Dagon mythos, so I decided to list Vodyanoy as Cosmic Horrors instead of Relicts.
- **Cthugha**, **the Living Flame** as well as his minions, the **Fire Vampires** appeared in a session of the Witcher TTRPG run by user: [Adalwulf of Aedirn](#).
